

WHY THUNDER?

Because it's the Bluetooth speaker that combines design, features with a rich and dynamic sound.

Thanks to IPX7 certification, which makes it resistant to temporary immersion in water, it is the ideal speaker for those who want to listen to music even at the outdoor parties.

The dual driver with a 10W total output power and the double passive diaphragm makes the bass richer and the sound always clean and balanced without distortion even at maximum volume.

Item code: BTSPKTHUNDER.
